Tiger population in Uttar Pradesh

- 162. SHRI JAGAT VIR SINGH DRONA: WIII the Minister of ENVIRONMENT AND FORESTS be pleased to state:
- (a) whether there is a steep decline in the population of tigers in Uttar Pradesh,
- (b) if so, the details thereof alongwith the reasons therefor; and
- (c) the steps being taken by the Government to protect and preserve this species in the State?

THE MINISTER OF STATE OF THE MINISTRY OF ENVIRONMENT AND FORESTS (CAPT. JAI NARAIN PRASAD NISHAD) (a) Yes, Sir.

(b) The "All India Tiger Census" is conducted once in four years in the country. The estimated population of tigers in Uttar Pradesh during the last two censuses, as reported by the State Government, is as under:

1989	:	735
1993	,	465

The main cause for the decline of tiger population is the recent increase in poaching to meet the demand of illegal international trade in tiger bones and other parts of its body. The shrinkage of habitat due to bio-tic pressure has also contributed substantially to this effect.
